

Swedens most MTB-area

41. Tännäs, Bergvallen - Klyfttjärnsvallen.

Length: 19 km.

Difficulty level: green.

Start: Tännäs church.

Bike to the west on the gravel road towards Funäsdalen that rises lightly. A pond can be seen between the trees and after about 5 km there is a turnoff from the road marked "CYKELLED". Pass the turnpike and bike the road heading west.

A nice, small road with a beautiful view of Tännån and the mountains by the Norwegian border. Up at Klyfttjärnsvallen, the old farm, take a break. Enjoy the view of the panorama of mountains. The head back home the same way as you came.
